

Registry Viewer 1.7.4

Release Notes

Document Date: 3/4/2014

©2014 AccessData Group, Inc. All rights reserved

Introduction

These Release Notes cover new features and enhancements, as well as bug fixes and known issues for AccessData® (AD) Registry Viewer® 1.7.4.

New and Improved

- Support has been added for both Windows 8 and Windows 8.1 NTUSER.DAT hive files.
- NTUSER.DAT hive files can be improperly synched if collected from a live system that happened to be updating the registry during the collection. Support has been added for improperly synchronized hives.

Fixed Issues

- Fixed the issue that sometimes caused the Preview Report to not open properly. (16017)
- You no longer get an error when loading an existing report. (36667)

Known Issues

- When examining a USER HIVE file, the Password Required field may display TRUE even though a computer has a blank password and a password is not required to log in. (4308)

Registry Viewer 1.7.3 Release Notes

Document Date: 11/25/2013

©2013 AccessData Group, Inc. All rights reserved

Introduction

These Release Notes cover new features and enhancements, as well as bug fixes and known issues for AccessData® (AD) Registry Viewer® 1.7.3.

Fixed Issues

- Fixed the issue that caused Registry Viewer to display an "Encountered an Improper Argument" error when viewing the *Common Area*. (31712, 31683)

Known Issues

- **Upgrade**
You must perform one of the following steps to upgrade to 1.7.3:
 - Uninstall 1.6.3 before installing 1.7.3
 - Install 1.7.2 and then install 1.7.3

We value all feedback from our customers. Please contact us at support@accessdata.com, or send documentation issues to documentation@accessdata.com.

Registry Viewer 1.6.3 Release Notes

Document Date: 10/21/2010

©2010 AccessData Group, Inc. All rights reserved

Introduction

These Release Notes cover new features and enhancements, as well as bug fixes and known issues for AccessData® (AD) Registry Viewer® 1.6.3.

New and Improved

- The Summary Reports dialog box has been enhanced for better usability. Specifically, the Available Summary Reports list window has been widened to accommodate reports with long file names. (16910)

Fixed Issues

- On-screen errors have been updated to more accurately inform users why the file being opened in Registry Viewer is causing an error in the application. (17602)
- Fixed the issue that caused Registry Viewer (when launched from within FTK) to display inaccurate information under the Protected Storage System Provider (PSSP) registry key. (18124)
- *Help Topics* has been removed from the Help menu and has been replaced with *User Guide* to open the User Guide. (16904)
