Discovery Cracker

Supported File Types

## Access your files with AD Summation Discovery Cracker, the most proven eDiscovery software for in-house data processing.

This document contains lists of the following types of files that the Discovery Cracker program supports (click to follow the link):

- E-Mail Systems
- Spreadsheet Formats
- Database Formats
- Generic Word Processing
- Word Processing
- Presentation Formats
- Compressed and Encoded Formats
- Standard Graphic Formats
- Other

### E-Mail Systems

- Outlook E-mail
- Outlook HTML e-mail
- Lotus Notes

### Spreadsheet Formats

- Enable
- First Choice
- Framework
- Lotus 1-2-3 (DOS & Windows)
- Lotus 1-2-3 (OS/2)
- Lotus 1-2-3 Charts (DOS & Windows)
- Lotus 1-2-3 for SmartSuite
- Lotus Symphony
- Microsoft Excel Charts
- Microsoft Excel Macintosh
- Microsoft Excel Windows
- Microsoft Multiplan
- Microsoft Windows Works
- Microsoft Works (DOS)
- Microsoft Works (Mac)
- Mosaic Twin
- Novell Perfect Works
- OpenOffice Calc for Unix
- OpenOffice Calc for Windows
- PFS:Professional Plan
- QuattroPro for DOS
- QuattroPro for Windows
- SmartWare II
- StarOffice Calc for Unix
- StarOffice Calc for Windows
- SuperCalc 5
- VP Planner 3D

### Database Formats

- Access (through version 2.0 with the Discovery Cracker Viewer, through version 2003 with MS-Access)
- DataEase
- dBASE

- dBXL
- Enable
- First Choice
- FoxBase
- Framework
- Microsoft Works (DOS)
- Microsoft Works (Mac)
- Microsoft Works for Windows
- Paradox (DOS)
- Paradox (Windows)
- Personal R:BASE
- Q & A
- R:BASE 5000
- R:BASE System V
- Reflex
- SmartWare II

### Generic Word Processing

- ANSI Text (7 & 8 bit)
- ASCII Text (7 & 8 bit)
- EBCDIC
- HTML
- IBM FFT
- IBM Revisable Form Text
- Microsoft Rich Text Format (RTF)
- Unicode Text
- UTF-8
- WML

### Word Processing

- Adobe FrameMaker (MIF)
- Corel WordPerfect for Windows
- DEC WPS Plus (DX)
- DEC WPS Plus (WPL)
- DisplayWrite 2 & 3 (TXT)
- DisplayWrite 4 & 5
- Enable
- First Choice
- Framework
- Hangul
- IBM Writing Assistant
- JustSystems Ichitaro

## AD Summation

## Discovery Cracker

## Supported File Types

**Microsoft Project** – Files created with Microsoft Office Project 2008 are not yet supported.

**Microsoft Access** – Because of limitations with handling Access files, Discovery Cracker is unable to extract much of the internal metadata; however, the body text (table information) is extracted from Access databases.
